

Er-Xiong Ding  
PhD Candidate

Department of Applied Physics, School of Science, Aalto University

Group leader  
Professor Esko Kauppinen

Research topic: Carbon Nanotubes

Summary of research:

My previous research was synthesis of morphology-controllable carbon nanomaterials by substrate chemical vapor deposition method. At present, I am devoting myself into carbon nanotube synthesis and carbon nanotube film based flexible electronics.

About myself:

Shaanxi Province, China

Terracotta Army
