

A completely updated edition of the acclaimed reference.

This *Second Edition of Handbook of Numerical Heat Transfer* covers the basic equations for numerical method calculations regarding heat transfer problems and applies these to problems encountered in aerospace, nuclear power, chemical processes, electronic packaging, and other related areas of mechanical engineering. As with the first edition, this complete revision presents comprehensive but accessible coverage of the necessary formulations, numerical schemes, and innovative solution techniques for solving problems of heat and mass transfer and related fluid flows.

Featuring contributions from some of the most prominent authorities in the field, articles are grouped by major sets of methods and functions, with the text describing new and improved, as well as standard, procedures. *Handbook of Numerical Heat Transfer, Second Edition* includes:

- Updated coverage of parabolic systems, hyperbolic systems, integral and integro-differential systems, Monte Carlo and perturbation methods, and inverse problems
- Usable computer programs that allow quick applications to aerospace, chemical, nuclear, and electronic packaging industries
- User-friendly nomenclature listings include all the symbols used in each chapter so that chapter-specific symbols are readily available

ISBN: 0-471-34878-3, Cloth, 970 pages, \$195.00 US, \$253.99 CAN, £120.00, €169.60

Contents:

PART ONE: FUNDAMENTALS

1. Survey of Numerical Methods
J.Y. Murthy, W.J. Minkowycz, E.M. Sparrow and S.R. Mathur
2. Finite-Difference Method
Richard H. Pletcher
3. Finite-Element Method
Juan C. Heinrich
4. Boundary-Element Method
A.J. Kassab, L.C. Wrobel, R.A. Bialecki and E.A. Divo
5. Large Eddy Simulation of Heat and Mass Transport in Turbulent Flows
Cyrus K. Madnia, Farhad A. Jaberi, and Peyman Givi
6. Control-Volume-Based Finite-Difference and Finite-Element Methods
B.R. Baliga and N. Atabaki
7. Meshless Methods
D.W. Pepper
8. Monte Carlo Methods
A. Haji-Sheikh and J.R. Howell
9. Discrete-Ordinates and Finite-Volume Methods for Radiative Heat Transfer
J.C. Chai and S.V. Patankar
10. Pressure-Based Algorithms for Single-Fluid and Multifluid Flow
F. Moukalled and M. Darwish

11. Numerical Modeling of Heat Transfer in Wall-Adjacent Turbulent Flows
T.J. Craft, S.E. Gant, A.V. Gerasimov, H. Iacovides and B.E. Launder
12. A Critical Synthesis of Pertinent Models for Turbulent Transport Through Porous Media
K. Vafai, A. Bejan, W.J. Minkowycz and K. Khanafer
13. Verification and Validation of Computational Heat Transfer
Dominique Pelletier and Patrick J. Roache
14. SENSITIVITY ANALYSIS AND UNCERTAINTY PROPAGATION OF COMPUTATIONAL MODELS
B.F. Blackwell and K.J. Dowding
15. Computational Geometry, Grid Generation and Adaptive Grids
Graham F. Carey
16. Hybrid Methods and Symbolic Computations
Renato M. Cotta and Mikhail D. Mikhailov

PART TWO: APPLICATIONS

17. Inverse Problems in Heat Transfer
Nicholas Zabaras
18. Moving-Boundary Problems
Wei Shyy
19. Numerical Methods for Phase-Change Problems
V.R. Voller

20. Computational Techniques for Microscale Heat Transfer
Da Yu "Robert" Tzou
21. Molecular Dynamics Method for Micro/Nano Systems
Shigeo Maruyama
22. Eulerian-Lagrangian Simulations of Particle/Droplet-Laden Turbulent Flows
F. Mashayek and W.J. Minkowycz
23. Numerical Modeling of Manufacturing Processes
Yogesh Jaluria
24. Computational Methods in Materials Processing
R. Pitchumani
25. Thermal Modeling of Technology Infrastructure Facilities: A Case Study of Data Centers
J. Rambo and Y. Joshi
26. Numerical Bioheat Transfer
B. Rubinsky
27. High-Performance Computing for Fluid Flow and Heat Transfer
D.W. Pepper and J.M. Lombardo
28. Overview of Numerical Methods and Recommendations
S.R. Mathur, W.J. Minkowycz, E.M. Sparrow and J.Y. Murthy

About the Editors:

W.J. MINKOWYCZ is Professor of Mechanical Engineering at the University of Illinois in Chicago.

E.M. SPARROW is in the Mechanical Engineering Department of the University of Minnesota.

J. Y. MURTHY is Professor of Mechanical Engineering at Purdue University.

HOW TO ORDER

United Kingdom/Europe:
John Wiley & Sons Ltd
The Atrium, Southern Gate
Chichester, PO19 8SQ, UK
