

第169回公開セミナー

Mechatronics applications in mechanical engineering

Prof. Osama A. Montasser

Professor of Control and Mechatronics at the Mechanical Power Engineering Department,
Faculty of Engineering, Ain Shams University, Cairo, Egypt.

日時: 2015年5月11日(月) Mon., May. 11, 2015 10:00-12:00

場所: 東京大学工学部2号館31A会義室 Eng. Bld. No.2, 2F 31A

Mechatronics is a multidisciplinary integration of mechanical engineering, electronics and intelligent computer control. It is used to optimally design and manufacture of smart products. It is also used to smart controlling many of industrial and thermal processes. A historical view will be given in this seminar for Mechatronics applications in Mechanical and thermal engineering.

Professor Osama A. Montasser
Professor of Control and Mechatronics
at the Mechanical Power Engineering
Department, Faculty of Engineering,
Ain Shams University, Cairo, Egypt.
